3 Composition/information on ingredients

· Chemical characterization: Mixtures

· Description: Mixture of the substances listed below with nonhazardous additions.

· Dangerous components:

Dangerede compensation				
10043-52-4	calcium chloride	Acute Tox. 4, H302; Eye Irrit. 2A, H319	50-100%	
7447-40-7	potassium chloride	Eye Irrit. 2B, H320	≤ 2 .5%	
· Additional information:				

Additional information:

For the listed ingredient(s), the identity and exact percentage(s) are being withheld as a trade secret.

4 First-aid measures

Description of first aid measures

· General information:

Symptoms of poisoning may even occur after several hours; therefore medical observation for at least 48 hours after the accident.

- After inhalation: Supply fresh air; consult doctor in case of complaints.
- · After skin contact:

Brush off loose particles from skin.

Immediately rinse with water.

If skin irritation continues, consult a doctor.

· After eye contact:

Remove contact lenses if worn.

(Contd. on page 3)

Printing date 07/14/2015

Reviewed on 07/14/2015

Trade name: Hot Stuff Calcium Chloride Flake

(Contd. of page 2)

Rinse opened eye for several minutes under running water. If symptoms persist, consult a doctor.

Rinse out mouth and then drink plenty of water.

Do not induce vomiting; immediately call for medical help.

- · Information for doctor:
- Most important symptoms and effects, both acute and delayed Irritant to eves.

Gastric or intestinal disorders when ingested.

Nausea in case of ingestion.

- Danger Harmful if swallowed.
- Indication of any immediate medical attention and special treatment needed Medical supervision for at least 48 hours.

5 Fire-fighting measures

- · Extinguishing media
- Suitable extinguishing agents: Use fire fighting measures that suit the environment.
- For safety reasons unsuitable extinguishing agents: None.
- Special hazards arising from the substance or mixture

Formation of toxic gases is possible during heating or in case of fire.

- · Advice for firefighters
- · Protective equipment:

Wear self-contained respiratory protective device.

Wear fully protective suit.

• Additional information No further relevant information available.

6 Accidental release measures

• Personal precautions, protective equipment and emergency procedures

Ensure adequate ventilation.

Wear protective equipment. Keep unprotected persons away.

For large spills, use respiratory protective device against the effects of fumes/dust/aerosol.

• Environmental precautions: Do not allow to enter sewers/ surface or ground water.

Methods and material for containment and cleaning up:

Pick up mechanically.

Dispose contaminated material as waste according to item 13.

Reference to other sections

See Section 7 for information on safe handling.

See Section 8 for information on personal protection equipment.

See Section 13 for disposal information.

7 Handling and storage

· Handling:

Precautions for safe handling

Prevent formation of dust.

Any deposit of dust which cannot be avoided must be regularly removed.

10043-52-4 calcium chloride	-
EV (Canada) Long-term value: 5 mg/m ³	
• Additional information: No further relevant information available.	
· Exposure controls	
Personal protective equipment:	
General protective and hygienic measures:	
The usual precautionary measures for handling chemicals should be followed	d.
Keep away from foodstuffs, beverages and feed.	
Immediately remove all soiled and contaminated clothing.	
Wash hands before breaks and at the end of work.	
Do not inhale dust / smoke / mist.	
Avoid contact with the eyes. Avoid close or long term contact with the skin.	
• Engineering controls: No further relevant information available.	
· Breathing equipment:	
Not required under normal conditions of use.	
Use suitable respiratory protective device in case of insufficient ventilation.	
For spills, respiratory protection may be advisable.	
Protection of hands:	
Gloves are advised for repeated or prolonged contact.	
The glove material has to be impermeable and resistant to the product/ the s	substance/ the preparation.
· Eye protection:	
Safety glasses	
Body protection:	
Not required under normal conditions of use.

9 Physical and chemical properties		
 Information on basic physical and chemical properties General Information Appearance: 		
Form: Color:	Flakes White	
	Odorless	
Odor threshold:	Not determined.	
· pH-value:	Not applicable.	
 Change in condition Melting point/Melting range: Boiling point/Boiling range: 	772 °C (1422 °F) Undetermined.	
· Flash point:	Not applicable.	
· Flammability (solid, gaseous):	Not determined.	
· Auto-ignition temperature:	Not determined.	
· Decomposition temperature:	Not determined.	
· Auto igniting:	Product is not self-igniting.	
· Danger of explosion:	Product does not present an explosion hazard.	
 Explosion limits: Lower: Upper: Oxidizing properties 	Not determined. Not determined. Non-oxidizing.	
· Vapor pressure:	Not determined.	
 Density: Relative density Vapour density Evaporation rate 	Not determined. Not determined. Not applicable. Not applicable.	
 Solubility in / Miscibility with Water: 	Easily soluble.	
· Partition coefficient (n-octanol/wat	er): Not determined.	
 Viscosity: Dynamic: Kinematic: Other information 	Not applicable. Not applicable. No further relevant information available.

10 Stability and reactivity

· Reactivity No further relevant information available.

· Chemical stability

Thermal decomposition / conditions to be avoided:

No decomposition if used and stored according to specifications.

· Possibility of hazardous reactions

Toxic fumes may be released if heated above the decomposition point.

Reacts with strong acids and oxidizing agents.

Heating occurs when water is added.

· Conditions to avoid Moisture.

· Incompatible materials: No further relevant information available.

· Hazardous decomposition products: Chlorine compounds

11 Toxicological information

· Information on toxicological effects

· Acute toxicity:

· LD/LC50 values that are relevant for classification:

10043-52-4 calcium chloride

Oral LD50 1000-2000 mg/kg (rat)

· Primary irritant effect:

• on the skin: No irritant effect.

· on the eye: Irritating effect.

· Sensitization: No sensitizing effects known.

· Additional toxicological information:

Harmful

Irritant

· Carcinogenic categories

• NTP (National Toxicology Program)

None of the ingredients is listed.

OSHA-Ca (Occupational Safety & Health Administration)

None of the ingredients is listed. **Probable Routes of Exposure** Indestion.

Inhalation.

Eve contact. Skin contact.

· Acute effects (acute toxicity, irritation and corrosivity):

Harmful if swallowed.

Irritating to eves.

· Repeated Dose Toxicity: No further relevant information available.

· CMR effects (carcinogenity, mutagenicity and toxicity for reproduction):

· Germ cell mutagenicity Based on available data, the classification criteria are not met.

• Carcinogenicity Based on available data, the classification criteria are not met.

(Contd. on page 7)

Printing date 07/14/2015

(Contd. of page 6)

· Reproductive toxicity Based on available data, the classification criteria are not met.

• **STOT-single exposure** Based on available data, the classification criteria are not met.

• STOT-repeated exposure Based on available data, the classification criteria are not met.

• Aspiration hazard Based on available data, the classification criteria are not met.

12 Ecological information

· Toxicity

- Aquatic toxicity: No further relevant information available.
- Persistence and degradability No further relevant information available.
- Behavior in environmental systems:
- · **Bioaccumulative potential** No further relevant information available.
- · Mobility in soil No further relevant information available.
- · Additional ecological information:

· General notes:

Do not allow undiluted product or large quantities of it to reach ground water, water course or sewage system.

• Other adverse effects No further relevant information available.

13 Disposal considerations

· Waste treatment methods

· Recommendation:

Small amounts may be diluted with plenty of water and washed away. Dispose of bigger amounts in accordance with Local Authority requirements.

The user of this material has the responsibility to dispose of unused material, residues and containers in compliance with all relevant local, state and federal laws and regulations regarding treatment, storage and disposal for hazardous and nonhazardous wastes. Residual materials should be treated as hazardous.

· Uncleaned packagings:

· Recommendation: Disposal must be made according to official regulations.

• Recommended cleansing agent: Water, if necessary with cleansing agents.
